

Gem ELECTRIC ORBITAL SANDER

The latest innovation for the solid surface and woodworking industries.

GEM's orbital action sands, polishes and finishes with a motion like that of the human hand! Sands equally well and uniformly on solid surface and wood products.

The GEM Orbital comes with the patented 3M Hookit™ II fastening system for use with Micron Paper, Trizact™ and Scotch-Brite™.

FEATURING 11" DRIVE PAD *Reduces labor by 1/2 or more!*

This heavy duty machine runs at 1700 "orbits" per minute without the possibility of creating the swirl marks associated with high-speed rotary buffers. Smooth, hand-polish action safeguards against surface damage. GEM's counter weight system is well balanced and smooth running, so you can guide the sander over the surface and let the 18 lbs. of weight do the work for you.
